

Next **NAVIGATOR 2012 SETUP LIBRARY**

GB

ATTENTION

The **NAVIGATOR 2012** is a universal DMX controller and comes furnished with an initial generic configuration.

For a correct operation **IS NECESSARY** to configure the controller with the type of projectors/scanner to it connected.

The present sheet includes the list of the projectors/scanner contained in the inside memory of the controller, if the requested configuration is not present in the library, you need to make a personalized one.

The operation of configuration of the controller is described in the manual of instructions to the chapter "**LOAD LIBRARY.**"

I

ATTENZIONE

Il **NAVIGATOR 2012** è una centralina di controllo DMX universale ed è fornita con una configurazione iniziale generica.

Per un corretto funzionamento **È NECESSARIO** configurare la centralina in funzione del tipo di proiettori/scanner ad essa collegati.

Il presente foglio include l'elenco dei proiettori/scanner contenuti nella memoria interna, se la configurazione richiesta non è presente nella lista bisogna crearne una personalizzata.

L'operazione di configurazione della centralina è descritta nel manuale d'istruzioni al capitolo "LOAD LIBRARY".

F

ATTENTION

Le **NAVIGATOR 2012** est un DMX universel contrôleur et vient meublé avec une initiale configuration générique.

Est pour une opération correcte **NECESSAIRE** à configuration le contrôleur avec le type de projecteurs/scanner à lui est connecté. Le drap présent contient la liste des configurations a contenu dans la mémoire intérieure du contrôleur.

Si l'a demandé la configuration n'est pas présent dans la bibliothèque, vous avez besoin de faire un a personnalisé.

L'opération de configuration du contrôleur est décrite dans le manuel de directives au chapitre "LOAD LIBRARY".

SP

ATENCIÓN

El **NAVIGATOR 2012** es un DMX universal director y viene amuebló con un inicial configuración genérica.

Por un funcionamiento correcto **ES NECESARIO** configurar al director con el tipo de proyectores/scanner a él conectó. La hoja presente contiene la lista de las configuraciones contuvo en la memoria interior del director.

Si el rogó configuración no es presente en la biblioteca, necesita hacer un adaptó.

Se describe el funcionamiento de configuración del director en el manual de instrucciones al capítulo "LOAD LIBRARY".
